

Dear Community Member,

I would like to introduce to you LOSpro, a new way to search for health care resources on the internet. LOSpro is a FREE web based portal that functions much like a search engine and is built specifically for your community.

Our Mission is simple; to provide medical professionals and the public with up to date, relevant and easily accessible health resource information via the internet. Our goal is to educate communities across America so they can make informed medical decisions for themselves and their loved ones. We are heart driven in our care and socially responsible in our practices.

LOSpro is different from other health resource websites in that every LOSpro community has a hand-chosen Care Coordinator. These Coordinators are professionals who are already well established in your community. We engage the best local professionals like Nurses, Medical Social Workers, Geriatric Care Managers, and Placement Specialists to assist with coordination of services in each LOSpro community. We list services ranging from nursing facilities to elder attorneys and everything in between. We list as many resources as we can find and if we missed something simply let us know and we will put it on the site for you.

To keep our site free for the community and health professionals to use we must rely on advertising dollars from our vendors to help cover our cost and allow us to grow. We highlight our advertisers on the website and give them access to the community calendar, community blog and news features of LOSpro. With these features you can list special events, open houses or post news events and spotlight employees. We have clickable maps and "email to a friend" features available. We can also embed your photo slide show, video tours, referral forms, email links, web links, product lines and much more.

LOSpro acknowledges and abides by Medicare transparency rules and promotes a patient's right to choose. Lospro is also HIPAA compliant. With these practices we all win!

Welcome to the LOSpro Team,

George Eastman
Founder, LOSpro.com
